

# Remanufactured Parts

## The Single Source to Keep Your Office Up and Running

Depot International is an industry leader in providing comprehensive technology solutions, including printer parts, computer and server parts, IT services, and training programs. We offer our customers the highest quality parts and services at competitive prices while ensuring an exceptional customer experience.

### Remanufactured Printer Parts

Depot International offers over 15,000 printer parts. We stock the parts you need for all of the leading manufacturers' equipment. All of our remanufactured printer parts go through an ISO-certified manufacturing process and are subjected to rigorous quality testing protocols. Depot International offers comprehensive product and technical support for our broad and deep lineup of printer parts, computer and server parts, and IT services.

**Over 15,000 printer parts in stock and ready to ship including:**

- Logic Boards
- Power Supplies
- Paper Feed Mechanisms
- Scanners
- Printheads & Modules

### Maintenance Kit & Fusers

The best way to prevent your laser printer from wearing out is to install a maintenance kit. Printer maintenance kits contain spare parts that have highly predictable wear characteristics. By proactively using a maintenance kit, you eliminate repeat service calls, maximize paper feed and increase print quality. Additionally, you save money! Purchasing a complete kit from Depot International is much more cost effective than buying all the parts separately.

### Fusers

Depot International offers new and refurbished fusers. Refurbished fusers are totally remanufactured by Depot International. Every refurbished fuser undergoes a rigorous product testing and qualification procedure before it leaves our facilities. Our extensive range of test beds allows us to reproduce the most demanding conditions found in the field.

### Printer Maintenance Kit Includes:

- Paper Pickup Rollers
- Paper Feed/Separation Rollers
- Transfer Roller
- Fuser Assembly
- Gloves and Manual
- 6-Month Warranty

### Computer and Server Parts

Depot International stocks new and refurbished computer and server equipment from leading OEMs including HP and IBM.

- Servers & Blades
- Laptops & Desktops
- Networking – Routers, Switches & SFPs
- Memory
- Hard Drives & Tape Drives
- Controller & HBA Cards
- Processors
- Infrastructure
- Power Supplies
- MSA Storage
- Spare parts – system boards, LCD, keyboards, backplane boards, fans, etc.

Call us today and we'll help you find the parts you need!
