

FOR IMMEDIATE RELEASE

Depot International Takes Home Awards for both HP, Inc. and HP Enterprise Recognizing Top Performance

Farmingdale, N.J. – (May 4, 2017) – Depot International, the global leader in the distribution and manufacturing of printer parts, received HP's Authorized Printer Parts Partner of the Year award for 2016. The award is presented to HP's partner with the highest performing sales volume for a given year. This is the fourth straight year that Depot has been recognized as HP's largest replacement parts partner.

"We see this award as a testament of our commitment to our customers who place their trust in us to support their critical business needs; customer service and support are the key drivers for Depot International," said Chris Sinibaldi, SVP and General Manager, Depot International. "Our customers choose Depot because we offer parts they can trust, such as genuine HP OEM parts, in conjunction with the highest levels of customer service, training, and additional solutions. We aim to be a partner with our customers, not just sell them parts, which continues to fuel our growth."

Depot International offers comprehensive support for a broad lineup of parts and IT services. All of Depot International's support agents are trained to provide full technical support for all the products offered. The support team undergoes extensive training with the goal to provide 100 percent customer satisfaction.

For the second year in a row, HP Enterprise also awarded Depot its Partner of the Year award for 2016, which was also based on the highest performing sales volume for authorized replacement parts partners.

"Our Enterprise parts business has been a focus of our growth, partnering with HPE has ensured that our customers can again rely on Depot International to support their critical business needs. This award is again a testament to our customer's commitment and trust, that when they need genuine HP enterprise parts they can turn to us," said Sinibaldi.

That makes Depot International number one in performance for both categories and the second consecutive year for HPE enterprise. For more information about Depot International, please visit www.depotintl.com.
